RE: TRACKER SYSTEM AT RAK INTERNATIONAL AIRPORT

Greetings from RAK International Airport!

We, hereby confirm that the Tracker System developed and maintained by CS SOFT a.s. which was delivered as part of the Skyring System Solution has been successfully put into operation and is in use as part of Air Traffic Control System since 2008.

The system is operational since its commissioning date.

We are satisfied with the support services and we appreciate the prompt response of CS soft for our technical queries.

We can recommend CS SOFT a.s. as a good, trustworthy contractor.

Yours Sincerely,

Mohammed Qazi
CEO & Board Member
