

STATE ENTERPRISE „ORO NAVIGACIJA“

To whom it may concern

4th of October, 2022, Vilnius, Lithuania

Subject: Reference Letter - ALS ATM System

We hereby confirm that ALS ATM System, which has been deployed at Kaunas airport, developed and implemented by CS SOFT a.s.,

had successfully past SAT in February 2022 and has been put into live operation, after successful closure of mandatory trial period and receipt of CAA approval, in September 2022.

ALS ATM System, in a configuration for Kaunas ATCC (TWR + APP) and ACC contingency for Vilnius, provides air traffic management system functionalities which include, but are not limited to:

Flight Data Processing, Surveillance Data Processing, Aeronautical Data Information Processing, Safety Nets, Controller Working positions, Recording and Playback, Technical Monitoring and Diagnostics.

We recommend CS SOFT as a reliable and trustworthy software supplier and long-term partner.

Yours sincerely,

Mindaugas Rudokas

Head of ATC Systems Maintenance Division,

Acting Head of Technical Department
