TO WHOM IT MAY CONCERN

RE: RAK INTERNATIONAL AIRPORT FLIGHT DATA PROCESSING (FDPS) AND TRACKER SYSTEM

Greetings from RAK International Airport!

We hereby confirm that the Flight Data Processing and Tracker System developed by CS SOFT a.s., which was delivered as a part of the Skyring System Solution in partnership with SkySoft-ATM, has been successfully put into operation and is in use since 2008.

The Air Traffic Control System is operational since its commissioning date and is maintained under Service Level Agreement.

We are satisfied with provided support services and we appreciate the prompt response of CS SOFT for our technical queries.

We can recommend CS SOFT a.s. as a good, trustworthy contractor.

Best Regards,

Karthik Padmanaban
Head of Facility Management & Engineering
